Problem/Compromise Card Instructions

Use these graphics when conflict arises within a group.

Step 1: Complaining party identifies problem *and* his or her proposed solution.

Step 2: He or she gives the problem card to the other party.

Step 3: The other party has 24 hours to think, reflect, and respond in writing.

Choice 1: He or she agrees with the solution and states how he or she will comply with/adopt the solution using the "I will…" prompt.

Step 4: The other party returns the card to the complaining party and they consider the issue resolved.

Choice 2: He or she disagrees with the solution and proposes a counter-solution.

Step 4: Complaining party fills out a compromise card. A conference with the students may be advisable at this point.
